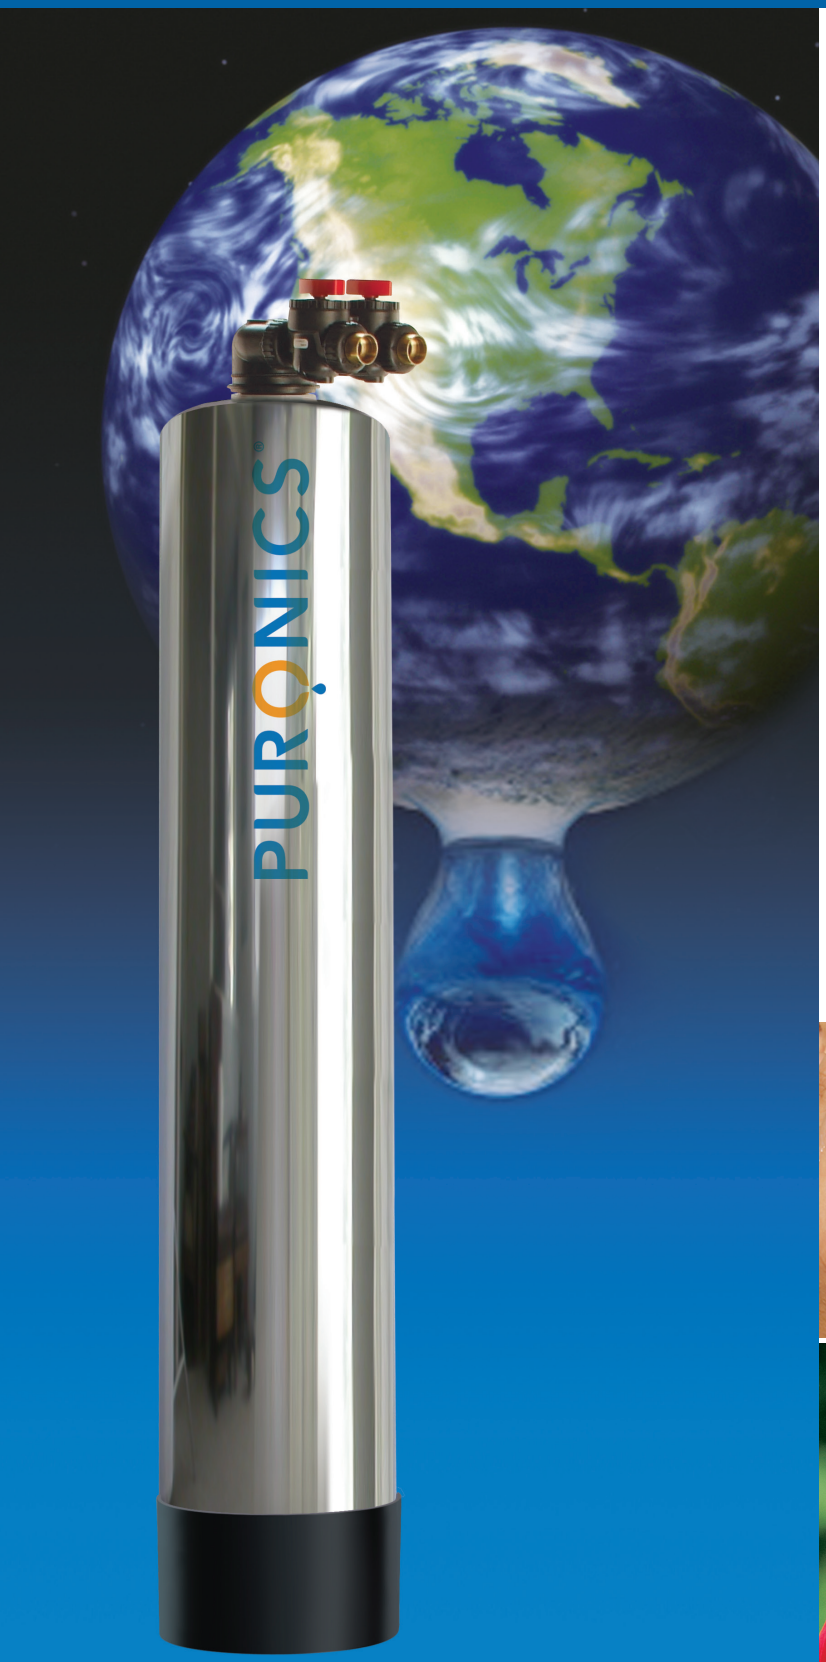
PURONICS® GOODSPRING™ BWS

The Next Generation of Ionics® Solutions



The Green Solution to Maximize Water Quality...Minimize Scale Build-up.

The Puronics® GOODSPRING™ BWS water treatment system offers environmentally conscious consumers a simple solution for great-tasting, crystal clear water. This 'green' system requires No Salt, No Potassium and No Chemicals to produce high-quality water while reducing scale caused by hard water with Puronics' unique ScaleMax™ media. The innovative up-flow valve self-backwashes, eliminating the need for costly special drainage plumbing, while the exclusive JetWhirl™ technology maximizes filter media performance and extends service life. Puronics® combines this 'green' ScaleMax™ technology with its SilverShield® Protection to ensure your family will enjoy the highest quality water with minimal impact on the environment.

Hair and skin are softer and silkier

Food tastes better

Clearly Refreshing® water

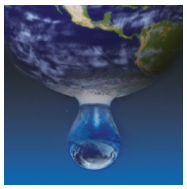
Better tasting beverages

PURONICS® GOODSPRING™ BWS

The Next Generation of Ionics® Solutions

Green Technology

- No Salt!
- No Potassium!
- No Chemicals!
- No Electricity Required!



ScaleMax™ Scale Inhibitor Media

- Reduces scale formation by hard water minerals
- Preserves Calcium & Magnesium necessary for good health

NASA Technology at work in your home

- MicroSilver Bacteriostasis™ Technology is based on NASA silver ion technology developed to purify water on the Space Shuttle Orbiters.
- SilverShield® HYgene® filter media - incorporates MicroSilver Bacteriostasis™ Technology into activated carbon to inhibit bacteria growth within the system's filter media while reducing objectionable tastes and odors.

In & Out Up-Flow Control Valve

- Simple to install, requires no special plumbing
- Eliminates waste water, no need for drainage
- Self-backwashing to keep filter media bed clean
- Durable, corrosion resistant construction

Three Piece Filter Media Tank

- Inner liner of Polyethylene
- Outer layer of fiberglass
- Stainless Steel Outer Cover

MicroSilver Bacteriostasis™ Technology

- Microscopic particles of silver are embedded into SilverShield® HYgene® media to inhibit bacteria growth within the filter media bed

Refiner

- SilverShield® HYgene® media reduces objectionable chlorine and chloramine tastes and odors

Filter

- Purifex® media uses green technology to filter water, making it smooth and gentle while leaving the healthy minerals such as Calcium and Magnesium in your water

JetWhirl™

- Patented design accelerates dispersion of water evenly throughout the media bed to expand contaminant removal capacity
- Maximizes performance of entire media bed for extended service life

ScaleMax™ Scale Inhibitor Media

- Advanced filter media converts hard water minerals into micro crystals minimizing potential scale build-up
- Preserves the health benefits of Calcium and Magnesium
- Reduces previously formed scale in plumbing over time
- Effectively reduces scale formation in hot water tanks

GOODSPRING™ BWS is not a water softener and does not remove hardness from the water.

Contaminants or other substances which can be removed by the Puronics® GOODSPRING™ BWS system are not necessarily in your water. Operational maintenance and replacement requirements are essential for the product to perform as advertised. Actual savings achieved are dependent on your particular spending habits and usage levels.
